As a final-year student at FPT University with internship experience at FPT Software, I specialize in web and mobile development. I bring strong English communication skills and a solid foundation in software development, making me an effective team player and a valuable asset as a Junior Mobile Developer.

🎓 EDUCATION

Software Engineer
FPT University
GPA: 3.5/4

TECHNICAL PROFICIENCIES

Programming languages:
- TypeScript, JavaScript, Swift.

Frameworks/Libraries:
- ReactJS, React Native, NodeJS, SwiftUI.
- PrimeReact, Ant Design.

Database: SQL Server, PostgreSQL, MongoDB (NoSQL).

Operating Systems: Windows, Linux.

Methodology: Agile, Scrum, Waterfall, Spiral Methodology

Others: Postman, Git, Figma, Docker, Redis, JIRA, Firebase.

AWARDS

- **TOP 1 - Rocket Boost - An Entrepreneurial Competition**
- **Top 100 EXCELLENT STUDENT ACHIEVEMENT AWARDS** | FALL 2024
- **HONORABLE STUDENT ACHIEVEMENT AWARDS** | FALL 2023 | SPRING 2023 | SUMMER 2022
- **EXELLENT STUDENT ACHIEVEMENT AWARDS** | FALL 2022

💼 WORK EXPERIENCE

01/2024 – Now

Unicourse LLC — *Co-Founder & Mobile Developer*
- Developed cross-platform mobile and web applications for Unicourse, enhancing user experience and performance.
- Designed and implemented seamless user experiences across iOS, Android, and web platforms using **React Native**, SwiftUI and **ReactJS**
- Achieved **Rocket Boost's Top 1 Award**, with the platform generating active revenue and growth.

08/2022 – 12/2023

FPT Software — *Frontend Developer*
- Implemented features and user interfaces on the website using **ReactJS** and **PrimeReact**, ensuring a seamless user experience.
- Collaborated with development teammates and other departments to ensure code consistency and efficiency.
- Applied strong knowledge of **ReactJS** and **TypeScript** to address technical challenges and optimize application performance.
- Applied Testing with Jest to ensure the quality and functionality

📜 CERTIFICATIONS

Top 1 - Rocket Boost - An Entrepreneurial Competition
- Entrepreneurial Development
- FPT University, Nov - 08 - 2024

Software Development Lifecycle
- University of Minnesota
- Coursera, Mar - 26 - 2023

Project Management Principles and Practices
- University of California
- Coursera, Feb - 21 - 2024

Web Design for Everybody: Basics of Web Development & Coding
- University of Michigan
- Coursera, Nov - 22 - 2022

SKILLS AND ABILITIES

- English Communication.
- Japanese.
- Object-Oriented Design Pattern.
- Technical Solution Development.
- UX/UI Design
- Code and Quality Standards.
- Software Testing.

👥 PROJECT

UniCourse - FPT Learning Platform   (12/2023 - Now)

- **Overview**: A startup offering web and mobile access to university courses, focusing on FPT University students in short term.
- **Role:** Co-Founder & Mobile Developer & Web Developer
- **Responsibilities**: Lead the development of user interfaces for both mobile and web platforms, ensuring a seamless and responsive user experience across devices.
- **Member**: 7 members.
- **Achievements:** Recognized as one of the top projects at FPT University and awarded Top 1 in the Rocket Boost startup competition. The platform is live and generating revenue.
- **Technologies in use**:
  - **Mobile**: Android using React Native - Typescript and iOS using SwiftUI - Swift
  - **Frontend**: Admin using React - MUI - Typescript and Client using Angular - PrimeNG.
  - **Design Pattern**: Object-Oriented Pattern, Singleton Pattern, Atomic Design Pattern
- **Website**: https://unicourse.vn
- **Github**: Unicourse Github Here
- **App Store**: https://apps.apple.com/vn/app/unicourse/id6736771264
- **Google Play Store**: https://play.google.com/store/apps/details?id=com.kane.dev.unicourse&hl=vi

Whale Home - Rental Apartment Application   (12/2023 - 04/2024)

- **Position**: Technical Leader and Frontend Developer – ReactJS, React Native, Typescript, Expo.
- **Overview**: WhaleHome is a dedicated platform offering rental and sales services for apartments within the VinHomes area.
- **Member**: 5
- **Responsibilities**: Leading the technical direction of a React Native initiative, balancing responsibilities as a Technical Leader and hands-on Frontend Developer
- **Technologies in use**:
  - Frontend: React Native, Expo, ContextAPI.
  - Backend: Spring Boot, Java, SQL, Docker
  - Pattern: Singleton Pattern.
  - Technologies: PostgreSQL, Visual Studio Code, IntelliJ, Docker
- **Github**: Whale Home Github Here

Lambda – Yoga Class Applications   (05/2024 - 09/2024)

- **Overview**: A comprehensive mobile solution for managing and booking yoga classes, tailored for both customers and administrators.
- **Responsibilities**:
  - Developed cross-platform mobile applications using **React Native** and **Typescript**.
  - Designed intuitive interfaces for seamless user and admin experiences.
  - Integrated real-time booking and class management features for optimal performance.
- **Technologies:** React Native, Typescript, Kotlin, Expo, Firebase.
- **Github Customer App**: https://github.com/Trungkien03/Lambda.git
- Github Admin App: https://github.com/Trungkien03/Lambda-Admin.git
